Summary

Recent graduate with a deep passion for programming and a solid web development background. Eager to contribute to a dynamic team, grow my expertise, and positively impact the IT industry. Seeking opportunities to apply my skills and learn from experienced professionals while leveraging my academic and project experience.

Experience

CROWE HORWATH IT SERVICES LLP
TECHNICAL CONSULTANT INTERN
Noida
06-02-2023 - 31-06-2023

Experience in implementing and customizing Dynamics 365 solutions for clients, including troubleshooting and issue resolution.

Worked with the CMA (Crowe Metal Accelerator) development team to create unit test cases for customizations.

Created and managed technical documentation, design specifications, and configuration guides to facilitate knowledge transfer and efficient project management.

Skills - Microsoft Dynamics D365,SQl ,X++

Education

BANARAS HINDU UNIVERSITY
8.06
MASTER OF COMPUTER APPLICATION
12-12-2021 - 15-07-2023

AMBEDKAR INSTITUTE OF TECHNOLOGY
8.77
BACHELOR OF COMPUTER APPLICATION
15-07-2018 - 30-06-2021

Projects

ShopVista
An E-commerce Web Application

Developed a robust e-commerce platform, employing React 18 with Tailwind CSS for a responsive UI. Implemented state management using Redux Toolkit and back-end RESTful APIs with Express, connecting to MongoDB databases via Mongoose v7. Ensured secure user authentication with Passport JS and JWT, while leveraging MongoDB Atlas for scalable data storage. Integrated Nodemailer for efficient email communication and enabled secure payments through Stripe, utilizing Payment Intent-based custom flows for reliability.

React.js, JWT, Passport.js, Payment Processing , Express.js, Gmail Integration, Tailwind CSS, MongoDB, Redux , REST APIs

Netflix clone

Engineered a Netflix clone using React and Redux, featuring Styled Components for a modular and responsive design. Integrated with TMDb API to fetch and display dynamic content. Implemented Redux for state management, ensuring a seamless user experience. The application replicates Netflix's interface, offering users an immersive browsing and streaming experience with a scalable and maintainable codebase.

UI/UX , JavaScript, React.js, · Responsive Web Design, Redux, Style-Components, Tmdb API
